

Camu Camu Powder

Camu camu is a citric fruit native to the “cochas” or flooded lowlands of the Amazon rainforest. Harvested by natives in canoes during wet season, in dry season is arid and hot. These stressful and extreme climate conditions create a mega vitamin C content superfruit, containing 30 to 60 times more vitamin C than an orange.

Camu Camu also contains antioxidants, phytochemicals, amino acids, as well as many vitamins and minerals like beta carotene and potassium. Historically consumed by natives for taste and healing, it is currently valued as effective in assisting the immune system, fighting inflammation, and as a strong anti-viral food.

- High content of natural vitamin C
- Provide amino acids, beta carotene, calcium, iron, phosphorus and riboflavin
- Antioxidant power

Available in bulk and packaged.
